

I am writing to express the need for K-Love radio station in Phoenix, AZ. K-Love is aired on 105.5, 89.1, and 100.9. K-Love serves myself and my community through family-friendly radio programming that. If K-Love were to be displaced by an LPFM broadcaster K-Love listeners would lack the family-friendly programming that we support and need. It is very important that we have this station as an option to its listeners. K-Love's service to the public is so needed. It is never a worry that our children will hear the inappropriate comments that are played on other stations. It is vital that we retain the K-Love resource.
